DETAILED ACTION

1. Claims 1-13, 49, 55, 60, 64-66 and 68 are generic to the following disclosed patentably distinct group or species: (i) a reduced folate compound cobalamin and NSAID combination, (ii) a reduced folate compound, cobalamin and a steroid combination, (iii) a reduced folate compound, cobalamin and an immunosuppressant combination and (iv) a reduced folate compound, cobalamin and a cyclooxygenase inhibitor combination, (v) a folic acid or a reduced folate compound, cobalamin, NSAID and betaine combination, (vi) a folic acid or a reduced folate compound, cobalamin, a steroid and betaine combination, (vii) a folic acid or a reduced folate compound, cobalamin, an immunosuppressant and betaine combination and (viii) a folic acid or a reduced folate compound, cobalamin, a cyclooxygenase inhibitor and betaine combination. The species (particularly a non-steroidal anti-inflammatory drug, a steroid, an immunosuppressant and a cyclooxygenase inhibitor) are independent or distinct because they are recognized in the art as having different underlying mechanism, functions or operation.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from the reduced folate compound or folic acid and NSAID, steroid, immunosuppressant or COX inhibitor, for example 5-methyl-tetrahydrofolate from the reduced folate compound and rofecoxib from the cyclooxygenase inhibitor, under the instant claims of the elected group even though this requirement is traversed.

With the election of a specific exemplified compound, a generic concept will be identified by the examiner as the inventive group for examination.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 1614

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
